## ECU REMAPPING

One of the many specialist services brought to you by TyreMarks.

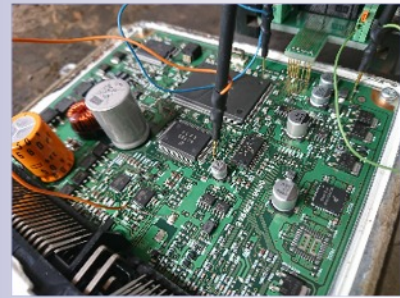

"Our performance Remapping option delivers significant gains in raw power which results in a new lease of life for your vehicle"

### KEY BENEFITS

- Improved Fuel Economy
- Increased Horsepower
- Increased Torque
- Better Throttle Response
- Smoother Power Delivery
- Safe Overtaking

With our remapping files we can offer other services like:

- Economy Remapping
- Performance Remapping
- DSG Transmission Tuning
- EGR Delete
- RPM Raise
- Launch Control
- MAF Removal
- Speed Limiter Removal
- Start Stop Disable
- Swirl Flap Removal
- DPF Solutions
- ... and more.

Anyone unfortunate enough to have had the VW/Audi/Seat/Skoda "Emissions update", we can help. With a Remap from TyreMarks we can sort their mess out with more power, more economy, smoother quieter engine or even just reinstating the previous file before the update; all is possible! Just ask for more details and information on the available options.
